PROFESSIONAL SUMMARY

Full-stack Software Developer with hands-on experience building scalable web applications using React.js, Node.js, FastAPI, and PostgreSQL. Proficient in RESTful API design, responsive UI development, and object-oriented programming principles. Experienced with cloud deployment (Vercel, Render) and AI-powered development tools including Claude AI and OpenAI Codex. Committed to writing clean, maintainable code and delivering user-focused digital solutions. Currently expanding knowledge in Docker and cloud platforms (AWS/GCP) to strengthen DevOps capabilities.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite

Backend: Node.js, Express.js, FastAPI, Python, REST APIs

Databases: PostgreSQL, MySQL, MongoDB, Cloudinary

Cloud & DevOps: Vercel, Render, Git, GitHub (version control & collaboration)

Tools: Postman, VS Code, JWT Authentication, Google OAuth 2.0

AI Tools: Claude AI, OpenAI Codex (workflow automation & code optimization)

PROJECTS

Finance Manager | *React.js • FastAPI • PostgreSQL • JWT • Google OAuth* | [GitHub](#) | [Live Demo](#)

- Built a full-stack personal finance web app; implemented JWT and Google OAuth 2.0 authentication, RESTful APIs, real-time budget tracking, and interactive monthly analytics charts — serving 100% of CRUD operations through a PostgreSQL-backed Python/FastAPI backend.

ExploIndia – Travel Social Platform | *React.js • Node.js • Express.js • MongoDB • Cloudinary* | [GitHub](#) | [Live Demo](#)

- Designed and developed a MERN-stack social platform supporting multi-media uploads via Cloudinary, real-time notifications, user interaction (likes, comments, saves), and a responsive UI — demonstrating full-stack ownership from database schema to deployment on Render.

Brain Training App | *React.js • React Router • Tailwind CSS • Local Storage* | [GitHub](#) | [Live Demo](#)

- Built an interactive cognitive training platform with multiple mini-games; implemented client-side routing, persistent score tracking via Local Storage, and fully responsive UI using Tailwind CSS — achieving smooth UX across all device sizes.

EXPERIENCE

Software Developer – Personal Projects & Self-Directed Learning

2023 – Present

- Developed 3 full-stack applications end-to-end, covering frontend UI, backend APIs, database design, and cloud deployment.
- Applied Agile development practices including iterative sprints, version control with Git, and continuous code refactoring for performance and maintainability.
- Integrated third-party APIs including Google OAuth 2.0 and Cloudinary, implementing secure authentication flows and media management pipelines.
- Debugged and optimized React.js components and Python/Node.js backend routes, improving code readability and reducing redundancy across all projects.

EDUCATION

Bachelor of Science in Information Technology

D.G. Ruparel College of Arts, Science & Commerce, Mahim, Mumbai – 400016

Jul 2023 – Apr 2026

SOFT SKILLS

Cross-functional collaboration • Analytical problem-solving & debugging • Agile teamwork • Time management
• Proactive self-directed learning • Effective written and verbal communication
